# OPEC members forego 5% oil price rise

VIENNA, June 29 (R). - Nine vienna, rune 29 (R). — Nine major oil-exporting nations to-day abandoned a planned five per cent price increase, saving the Western countries about \$2.5 hillion in import costs this

The decision was a compromise aimed at ending a six-month pricing dispute which faced the 13-nation Organisation of Petroleum Exporting Countries (OPEC) with the higgest crisis in its 17-year histo-

But two big OPEC producers, Iraq and Libya, which have taken a hard line on prices, sta-yed outside the agreement. Officials said it was not clear whether or not they would go ahead with the planned five per cent rise on July I. OPEC's Vienna headquarters

said Algeria, Ecuador, Gabon, Indonesia, Iran, Kuwait, Nige-ria, Qatar and Venezuela decided to drop the higher price

"in the interests of unity and solidarity of OPEC."

The climbdown was the result of an intricata compromise, under which Saudi Arabia and the UAE appeared likely to raise their prices by a further five per cent in exchange for the decision by the nine countries to freeze at 10 per cent.

Saudi Arabia's Petroleum Minister, Sheikh Ahmad Zaki Yamani, said on June 18 that his country and the UAE had agreed in principle to raise their prices by five per cent provided other OPEC members dropped plans for a further increa-

A major question mark remained over Iraql and Libyan in-tentions. Iraq is OPEC's fourth biggest producer, and Libya ranked no. 7 in last year'e production totals.

Informed sources said today's decision represented a major concession by the nine nations, in deference to Saudi Arabia's insistent demands for a price hold-down.

Although OPEC failed to restore pricing unity fully, the agreement was seen as an important papering-over of differences.

It was considered probable that Iraq and Libya would fall in line, although perhaps not immediately.

If they do, Western importers will save at least \$2.5 hil-

lion in import costs this year, according to industry estima-

If Iraq and Libya raise prices, it would remain to be seen whether Sheikh Yamani would carry out Saudi Arabia's pro-

#### **OPEC** decision boosts stock market, pushes down dollar

NEW YORK, June 29 (R). -The decision by nine members of OPEC to forego a planned five per cent price increase ga-ve a boost to the stock market but temporarily pushed down the dollar.

Oil experts said OPEC's failure to announce that that Sau-di Arabia and the United Arab Emirates would raise prices on July I, thereby ending the twotiar price structure in effect since last January, left the im-pact of OPEC's announcement

In addition, oil experts said they were waiting to see whe-ther Libya and Iraq would fall into line with the nine other OPEC members in foregoing the five per cent price rise in

July.
On the stock market here, dealers said the OPEC decision, which will mean that the U.S. oil import hill will not necessarily take another big jump-next month, belped counter fe-ars of an economic elowdown. Dealers said the OPEC news, by injecting another element of uncertainty into the economic picture, put downward pressu-re on the dollar, which today plunged against the Japanese yen and West German mark.

In the long run, the OPEC move would help the dollar by easing pressure on the bulging U.S. trade deficit, but the immediate impact was negative since the market was already nervous about economic conditions, the dealers said.

In Washington, sources at the Treasury Department said that while pleased that et least nine OPEC members would forego another price rise, the Ca-ner administration still believed that oil prices were too high and that any increase would not be economically justified.

mise to accept the general 10 per cent level for this year, sources said.

Diplomats said it was unlikely that Saudi Arabia would have agreed to raise its prices unless there was a reasonable assurance that all OPEC members would implement a common price.

The assumption was that Iraq and Libya would go along, but this would become clear only in two or three days, diplomats said.

The compromise move was seen as a victory for the back-stage diplomacy of OPEC Pre-sident Abdul Aziz Ibn Khalifa Al Thani, Qatar'e Oil Minister, and of President Carlos Andres Perez of Venezuela, who were active for months in trying to

end the two-tier price system.

The effect of the 10 per cent increase, decided by OPEC oil ministers at Doha, Qatar, last December, was to raise the average price of a 159-litre barrel of OPEC oil to \$12.70.

A further five per cent rise would bave brought the price

The decision was announced 14 days before OPEC oil mi-nisters meet in Stockholm for e regular twice-yearly confere-

The text of the announcement was : "In the interests of ent was: "In the interests of unity and solidarity of OPEC, the following member countries of the organisation Algeria, Ecuador, Gabon, Indonesia, Iran, Kuwait, Nigeria, Qatar and Venezuela have resolved to forego the application of the additional five per cent increaadditional five per cent increase in the price of oil as of July 1, 1977, a decision which was taken in Doha (Qatar) in December 1976."

The Nine today stressed a

lestinians.

LONDON, June 29 (R). - The nine Common Market countries tonight aligned their Middle East policy with the United States, accepting for the first time the principle of a Pales-tinian "homeland".

A declaration issued at an EEC summit here echoed recent statements by President Carter on the Middle East and is seen as a warning to Israeli Premier Menachem Begin that the nine disapproved of his tough stand on a settlement with the Arabs.

The text, issued by British Premier James Callaghan and the eight other community go-vernment heads, said: "A so-lution to the conflict in the Middle East will be possible only if the legitimate rights of the Palestinian people to give effective expression to its national identity is translated in-to fact, which would take into account the need for a homeland for the Palestinian peo-

Previous EEC statements have said merely that the effective expression of the netional identity of the Palestinians "could involve a territorial ba-

The Middle East declaration is the principal decision expected from the two-day summit, being beld at Lancaster House, to set the seal on Britain's six-month spell as president of the community's Council of Ministers.

It reaffirms the Common Market's earlier stand on the need to base a peace settlem-ent on U.N. Security Council resolutions 242 and 338. These call for an Israeli withdrawal from occupied territories, ac1. At the present critical stage in the Middle East, the Nine welcome all efforts now being made to bring to an end the tragic conflict there. They emphasise the crucial interest which they see in early and successful negotiations towards a just and lasting peace. They call on all the parties concerned to agree urgently to participate in such negotiations in a constructiva and realistic spirit. At this juncture in particular all parties the state of the such as a palleter which could expert. should refrain from statements or policies which could consti-

STATEMENT ON THE MIDDLE EAST

TEXT OF EEC STATEMENT

LONDON, June 29 (R). - Following is the text of the

declaration on the Middle East made by the nine Com-

mon Market heads of government at their summit meet-

tute an obstacle to the pursuit of peace.

The Nine set out on many occasions in the past, for example, in their statements of 6 November 1973, 28 September 1976 and 7 December 1976, their view that a peaca settlement should be based on Security Council resolutions 242 and 338 and on: I. the inadmissibility of the acquisition of territory by

II. the need for Israel to end the territorial occupation which it has maintained since the conflict of 1967

III. respect for the sovereignty, territorial integrity and independence of every state in the area and their right to live in peace within secure and recognised boundaries IV. recognition that in the establishment of a just and lasting

peace account must be taken of the legitimate rights of

h remains their firm view that all these aspects must be taken cs a whole.

3. The Nine have affirmed their belief that a solution to the conflict in the Middle East will be possible only if the legit-mate right of the Palestinian people to give effective expression to its national identity is translated into fact, which would take into account the need for a bomeland for the Palesple. They consider that the representatives of the parties to the conflict including the Palestinian people, must participate in the negotiations in an appropriate manner to be worked out in consultation between all the parties concerned. In the context of an overall settlement, Israel must be ready to recognise the legitimate rights of the Palestinian people equally, the Arah side must be ready to recognise the right of Israel to live in peace within secure and recognised boundsries. It is not through the acquisition of territory by force that the security of the states in the region can be reassured, but it must be based on commitments to peace exchanged between all the parties concerned with a view to establishing truly peaceful relations.

The Nime believe that the peace negotiations must be resumed urgently, with the aim of agreeing and implementing a comprehensive, just and lasting settlement of the conflict. They remain ready to contribute to the extent the parties wish in finding a settlement and in putting it into effect. They are also ready to consider participating in guarantees in the manner work of the United Nations.

# concentrated on Blat village but our forces drove back the Ecevit's chances of winning a vote of confidence in Turkish parliament seem more slim

rkish Premier Bulent Ecevit'e hopes for parliamentary approval of his minority government suffered another blow today when a minor centrist party announced that its three legislators would abstain in the vote of confidence.

The Executive Committee of the Republican Reliance Party (RRP) said it had decided that a minority government would not meet the needs of the co-

The decision appeared to move Turkey a step closer to a fullscale government crisis. Elections held on June 5 left the parliament bitterly divided at a time when economic problems and political violence are mounting.

Announcing Its decision, the RRP executive called today for a dialogue between Turkey's two big parties -- Mr. Ecevit's democratic Republican social democratic Republican People's Party (RPP) and exconservative Justice Party (JP). Mr. Demirel has been waging a fierce fight to block Mr. Ecevit, whose RPP is the biggest party in parliament, irom being approved as premier.

The social democratic leader's prospects were already exuncertain. His party has 214 members and can count on the vote of an independent included in Mr. Ecevit's cabinet, for a total of 215 apparently sure votes in the 450member National Assembly.

Mr. Demirel's party, with 189 members, the Islamic-ori-ented National Selvation Party, with 24, and the ultra-rightwing Nationalist Movement Party, with 16, have all vowed to oppose Mr. Ecevit in the vote of confidence, expected

in four or five days. Their 229 members make a majority, but Mr. Ecevit has been hoping that enough of their members would break ra-

ANKARA, June 29 (R). - Tu- Premier Suleyman Demirel's nks and support him or abstain to let him win the vote. He had also been hoping for the three RRP votes denied to

him today.

Mr. Ecevit began reading his government's programme While the rightwing is uni-ted in opposing Mr. Ecevit at

present, they have not agreed on renewing the coalition in which they governed until this month's elections. If they ultimately agree to join in coalition again, Mr. Demirel, as prospective premier, would probahly have to pay a high price in terms of offering key mi-nistries to the strongly Islamic NSP and the ultra-right NMP.

This could make it impossible for Turkey to take the firm action business and professional leaders believe is necessary to solve the problems of its debt-ridden economy and violence-plagued polltical and educational systems.

## ARAB PRESS COMMENTARY

Jordanian dailies Wednesday commented on the U.S. State Department's warning to Israel and the EEC summit meet-

ing in London.

AL SHA'B said that the American State Department statement to Israel is a positive act which clarifles the policy of the American administration for the whole world. It is the first time that an American administration has publically defined its approval of resolution 242 and the first time it has emphasised the logical interpretation of the resolution, which openly calls for Israel to withdraw from the territories occupied in the June 1967 War as a basic condition for estahlishing peace in the Middle

The paper continued that the U.S. statement was welcomed internationally. Only Israel has disapproved of the statement and expressed its worry. This signifies that Israel is the only one who opposes peace in the area. Israel accepted resolution 242 but later disapproved it just as it disapproves all U.N. resolutions issued to solve the Middle East crisis.

The paper added that the Security Council resolution calls for Israel's withdrawal from lands occupied in 1967 without the exclusion of any land. But Israel openly refuses such a resolution on the pretext that it wants "secure borders" and alleges the "liberation of the promised land." Israel forgets that the world, including the U.S., realises that "secure borders" are obtained by the desire for peace and coexistence based on equality. "Secure borders" are not obtained by feelings of superio-rity as Hitler had in his racist

superior race theory. Israel also forgets that the world realises that it is degrading for all bumanity to accept Israels four thousand years allegations wipe out the fact that several generations con-secutively lived in Palestine and got assimilated in the homeland, something which Is-rael is not capable of achieving since it adheres to racist

and stubborn religious ideas. The paper concludes that the problem with Israel is that its creation is based on a polltical thought which mixes hiblical and racist illusions. Only the U.S. is capable of saving Israel from its suicidal illusions and capable of bringing its thoughts into the 20th century.

#### EEC and M.E. Peace

AL DUSTOUR in an editorial entitled "The European Community and its responsibilities for peace", said that the EEC summit was meeting to discuss the persistent economic and political problems which will include the Middla East situation. The Middle East situation will be discussed in the light of a report prepared by EEC experts concerning the EEC's policy with regards to a peace-ful settlement.

The paper added that all the capitals of the area await with great concern an EEC summit declaration on the Middle East, especially since the U.S. has clarified its stand through the statement issued by the State Department.

The paper said that the EEC has issued two positive declarations on the Middle East in 1973 and 1975. The paper commented that the EEC should not miss the opportunity to issue a declaration supporting

U.S. efforts to establish peace. The paper added that the EEC must put all its efforts into achieving a peaceful solu-tion, now more than ever, because of:

1. Israeli insistance to annex occupied Arab lands: 2. The fact that U.S. peace efforts are reaching a decisive point where either the U.S. will succeed in taming Israel

or the whole area will undergo a catastrophe; 3. A European role must be

part of the Europeans does not coincide with sincere Arab intentions and the Arah's oil stand towards the Europeans;

4. The Arab European dialogue needs a European stand that will allow such a dialogue to be resumed; S. The security of the Medi-

terranean also includes the security of a number of European countries; 6. Any failure on the part of the EEC to support the U.S.

State Department statement will probably weaken its relations with the Arab World. The paper concluded that the capitals of the world await the EEC summit's statement on the Middle East. The paper also concluded that there is a great hope that the EEC countries will carry out their responsibilities, will participate in establishing peace, insisting on Israel's withdrawal from Arah lands and will help the Palestinians to retain their identity on Palestinian soil. A Lebanese and Egyptian paper also commented on the

#### Fifth M.E. War

Department's warning.

AN ANWAR of Lebanon said ld that it would be difficult to avoid a fifth Arab-Israeli war unless the U.S. and the Soviet Union agreed to impose a Mid-

dle East settlement by force. The paper was commenting on Monday's statement by the U.S. State Department that Israel would have to withdraw

from occupied Arab territories. It said the statement was the public prelude to a "counteroffensive" by President Carter to statements by Israeli Prime Minister Menachem Begin defending the occupation of the

"Some say President Carter ls not in need of going into a verbal and judicial exchange with Begin, and that he can simply say: I have decided to carry out the Security Council resolutions to which all parties have agreed', and that be should set a reasonable deadline.

the paper said. It recalled that Soviet Com-munist Party leader Leonid Brezhnev had proposed to former President Nixon a joint warning to Israel to carry out the resolution a few months before the 1973 Arab-Israeli war,

but Mr. Nixon had dismissed the idea. Al Anwar added: 'The situation now is not much different from what it had been on the eve of the October war.

"It is difficult to avoid a fifth war between the Arabs and Israel unless Carter, this ti-me, gets in touch with Brezhnev and agrees with him on the settlement hy imposing

"Leaving it to the antagonistic parties to agree on solu-tions has only produced four wars in the region."

#### Positive Step

AL AKHBAR of Cairo said the U.S. statement was "a po-sitive step towards the peaceful settlement of the Middle East crisis but cautioned it might not achieve its goals. Al Akhbar said this "cannot achieve its aims since tha new Israeli leadership con-

siders extremism the only way to deal with Arabs." leadership, it added, "depends in its extremism on a buge arsenal of sophisticated

American weapons. Al Akhbar said the new Isleadership was "even laying down its plans on the basis of saying 'no' to the United States ... rejecting American efforts to find a just solution, especially for the Pales-

tinian question."
It added: "The Arab nation is ready for all possibilities, and the Israeli leadership responsible before the whole world and history for all results stemming from its choice of the destructive extremist games.

# Israel and torture: A Sunday Times report

EDITOR'S NOTE: On June 19, 1977 THE SUNDAY TIMES ran a detailed inquiry by the Insight team into the use of torture by Israel on Arab detainees in the occupied

"Insight has questioned 44 Arabs who claim to have been ill-treated or tortured. Most of them still live in the occupied areas and some are willing to be named. We have tape recorded 110,000 words of testimony, and obtained corroboration wherever possible. Because the findings contradict official denials (by Israel) the evidence is set out in considerable detail..." THE SUNDAY TIMES says on its front page.

It continues "The practices we have examined have occurred throughout the ten years of Israeli occupation; our evidence spans this period, the last base being in December 1967. There is no reason to believe it has ceased : the allegations are

We continue with the testimonies of Palestinian detainees, possible locations of the principle interrogation centre and limits on the Red Cross.

There were also inconsistencies. Haq, for instance, recalls the courtyard as being "like the soil" and denies there were stones or gravel. And the illtreatment alleged varied in type and extent Freitah alleged almost continuous beatings and abuse. Abu Ghahyr said he was bardly touched. (Perhaps the reason was that Ahu Ghabyr bas a history of tuberculosis and, at his arrest. was ill with a stomach com-

Taking tha evidence as whole, bowever, we conclude that it amounts at least to a strong prima facle case that in 1974 Israel maintained an interrogation centre administered by the army, where suspects were booded, continuhandcuffed, deprived of sleep and other human amenities, and systematically subjected to physical and mental suffering.

WHERE IS this interrogation centre, this 'Palace of the End"? The most likely answer is that it lies behind the high wire fence that all tourists see as they drive the last stretch from Jerusalem to Tel Aviv. The wire, the military checkpoints at a couple of entrances, and a few low scruffy buildings in the distance are virtually all that is visible of the ten square miles of Israel's biggest army ordnance and supply depot, Sarafand. (The Jewish National Fund also uses part of Sarafand to house the equipment for road-building in its new settlements in Israel

and the occupied territories.) Sarafand occupies a prominent place in Palestinian demonology. Scores of statements talk of it; and most of those who have been through the interrogation ceotre refer to it automatically as Sarafand. But that is an assumption on their part, as questioning soon sbo-

There are, nevertheless, historical reasons why they could be right. Sarafand was built as the main British ordnance depot in Palestine before Wor-War II. When Britain then needed two camps to house Arab detainees during the riots of the late 1930s, one was built inside Sarafand. (The other was in Sinai). So many of the old British mandate buildings were taken over function and all, by the Israelis that Sarafand would have been a logical choice to house a new generation of Arah detainees

For it is clear from detainees' accounts that the mysterious new interrogation centre run by the military came into operation after the 1967 war. And it was another three years or so before its huilding -ramshackle at first, as if disused for a time -- had been renovated. (Some detainees, taken there at intervals, observed the process.)

The assertion that they were in Sarafand comes most confidently from those early alumni. Yet each in turn seems to have learned this only from inmates already there. Only one claimed to have seen a sign "Sarafand prison," and we thought this improbable.

In those early years, hlind-folding was less rigorously enforced, and a few detainees caught glimpses of their surroundings. One recalls a eucalyptus tree. But after 1970, continuous blindfolding and isolation shut out even those fragments.

Detainees could still hear, of course, and many speak of aircraft overhead. Sarafand lies below a flight path into Lod airport five miles away. But while some spoke of low-flying heavy aircraft -- which suggests an airport nearby -others said they bad been high. (Because theirs is the less pre-dictable testimony, the high-fliers seem preferable witnes-

So completely have the Isra-elis managed to isolate those under interrogation since 1970-1971, in fact, that the only evidence that the centre did not shift to some new locale then comes from two prisoners who, having been there before and after that period are confident they were in the same place

But when we tried to match those few early topographical details with those from Harb and the others arrested in 1974, we could not decide if they related to the same place. Nor was Harb or his comrades prepared to assert that they were in Sarafand.

"Others said it was Sarafand, Harb recalled. "But I don't know." Because it was so bot there, Harb tends to believe he was in "the southern part of Israel." (But he lived in the cool bills, and all the Israeli

coastal plain is hot in June.) Husni Haddad agreed with Harb. "I was a driver and I knew the roads," he said, and he thought that on the journey from his home in Bethlehem the jeep had turned south before reaching Sarafand. Had-dad also said that near the end of his stay at the centre, the sbutter outside his cell window slipped.

He saw fast traffic on a main road about 150 yards away, he said. That is roughly the dis-tance from the road to the buildings visible at Sarafand. But Haddad thought that a high proportion of the cars be saw had light grey number plates. which indicates Gaza registrations. He belleved, therefore, that the centre was somewhere

close to the Gaza Strip. ISRAEL commonly cites the International Committee of the Red Cross in its defence. At the U.N. last November, for instance, Ambassador Doron said: "Following his imprison-ment, particulars of each security prisoner are sent to the Interoational Committee of the Red Cross." This category of prisons, he said, "even enjoy some additional privileges, e.g. visits by the representa-tives of the ICRC ... on these occasions, they may talk with each prisoner without witnes-

Ambassador Doron did not

mention two important points. The Red Cross has indeed been able to visit prisons in the occupied territories since 1968. (Israel denies that the Geneva Convention applies, so It concedes the Red Cross no rights there; but it is allowed in.) Throughout those nine years, however, the Israelis have con-sistently forhidden the Red Cross to see prisoners undergoing interrogation. Nor did Doron say what we know from unimpeachable sources to be true: over the last nine years, when Red Cross representatives have got to prisoners in jails, they have heard story after story of ill-treatment and torture. And the Red Cross has filed hund-

# Third Circle Phantasmic By Omar Jawad

# Progress, anyone?

My efforts to belp solve the Arab-Israeli conflict are getting nowhere fast, and as a concession to the stark realities of this complex world, I bereby announce that I shall not put forward any more suggestions on how to solve the Middle East conflict for at least two weeks. In the meantime, however, and because I feel it my duty as a human being to help my fellow buman beings live lives that are comfortable and understandable, I shall make an effort to help make the Arab-Israeli conflict less bewildering.

My thinking is that as long as we have to live with the Middle East situation as it is, we may as well admit this and see how life can be made easier for everybody. So I have a suggestion to offer. But first -- you guessed it -- some background is necessary.

I read a news item recently that said American aid to Egypt is now running at a rate of \$900 million a year. I thought it was a bit peculiar for the Americans to give the Arabs so much money every year for deve-lopment projects that inevitably get destroyed every few years when there is a Middle East war. The Americans give money to the Arabs, and they give more money for the Israelis to use to beat up the Arabs.

So I suggest that the Americans simplify things for everybody by fighting the Arabs themselves, instead of paying Israel to do so. It makes much more sense to do this, and it would prohably be much cheaper for the

Americans in the long run.

I know that my suggestion will seem ridiculous to many people, but if you think about it for a moment you'll appreciate that it will still leave us with the same results we've been having for the past 30 years; The Americans will still give money to the Arabs to show us bow much they like us and how interested they are in our economic development; there still be a war every few years in which the Arabs have different areas of their countries destroyed; and the Israelis will still be able to ask for American aid by claiming that they live in a region of the world that is a tinderbox where a war could erupt at any

The only trouble with this arrangement is that it lessens the Israeli need for massive American aid. The Israelis won't go for this arrangement, so I have a suggestion to placate them. The Americans could give the Arabs several billion dollars in aid annually with the specification that the money be used to buy arms from Israel. This would keep Israeli industry working at full speed, which would keep the Israeli economy strong and thus in less need of American aid. The Arabs would have their weapons to fight the Americans. and the Arab-American wars could take place as planned every few years.

The way I see things, the Americans could invade an Arab country every, say, five years. What with Mauritania, Somalia and now Djibouti joining the Arab League, the choice of Arab countries with which the Americans can make war is growing every year. If Lebanon is partitioned and a Palestinian state created. this means there will be so many Arab countries that each one could safely expect to be beaten up by the Americans perhaps only once every century; this is far preferable to the present set-up, where several Arabs countries have to fight the Israelis collectively every

few years.

The big difference is that the new system would be so much easier to explain to Arab school children. Thus not only would my suggestion save money, and also save the Israelis and many Arabs much trouble, it would also contribute immeasurably to the serenity of little Arab children. If this isn't an investment in the future, I don't know what is.

And because the Arabs and the Americans are such good friends, perhaps a system could be worked out where we would only have play-wars. We could decide ahead of time what Arab cities are to be destroyed, and the inhabitants of those cities could be evacuated early to pre-arranged refugee camps. This would make things much easier for all those British charity organisations, something that would fit right into the Americans' new foreign policy aims of forging better relations with their North Atlantic allies.

The rationale behind my suggestion is that if America will pour billions of dollars in aid into the Middle East, and if it is necessary to have a war every few years, it is far better to have all this worked out systematically ahead of time than to leave it to the haphazard whims of the Arabs and the Israelis. The least we can expect from the U.S. is that it would apply in the Middle East the same standards of efficiency and planning that are applied in the U.S. itself. Now that would be real progress.

reds of notices to the Israeli Government pointing this out.

The International Committee of the Red Cross has, of course, won its right to operate by promising governments to remain silent. Its delegates, Swiss, undertake never to talk of their work. We have, bowever, learned from impeccable sources of the problems the Red Cross faces in the occupied territories.

The Red Cross is not immediately notified of arrests. Often it is the families or lawyers of prisoners who contact the Red Cross -- and usually they do not themselves know where the prisoners are now. The Red Cross then tries to trace and get to the detainees as swiftly as possible -- especially if there are any grounds for suspecting ill-treatment. But the delegates face three

obstacles. They have access only to prisons, not to police stations or military camps. Nor do they have unrestricted access even to prisons. Attached to prisons in the occupied territories are sets of cells which the Red Cross cannot see. Some are outside the prison proper, at-tached to the local military governor's office. But inside Nablus fail, for example, the special cells -- known there as "X-cells" -- are to be found

on the south side, near the solitary confinement cells.

These remain under the control of the security services, and the Red Cross has no ac-Nor, for the first eight years of occupation, could the Red Cross visit any prisoners in the bolding and interrogation centre known as the Russian Compound in Jerusalem. And it has

no access to the secret interrogation centre where Harb was held. Moreover, 48 hours before a prison visit, the Red Cross sub-mits to the prison authorities a oking for you everywhere," one list of prisoners it particularly wants to see. It sometimes then happens that when the delega-

the prisoner in question has been moved to another The delegates covering that jail promptly add the man to their list. If they in turn are told that the prisoner bas again been moved -- a process described to us as "playing paper games" -- their concern inevitably increases,

tes arrive, they are told that

So the Red Cross may only get to prisoners after a search and rarely if ever until interrogation is over. Several witnesses told us how Red Cross delegates greeted them when they finally met. "I've been lodelegate allegedly said. Another apparently remarked: 'Now I have found you, you will be safe."

# Cultural integration with Syria discussed

DAMASCUS (JNA). — Minister of Culture and Youth Sharif Fawwaz Sharaf Wednesday resumed talks with Syrian officials on ways of boosting bilateral cultural relations.

Discussions centred on the basis for Jordanian-Syrian cultural relations. Sharif Fawwaz, leading the Jordanian team to the talks, and the Syrian Minister of Culture and National Guidance, Dr. Najah Al Attar, asked cultural bodies in the two countries to submit working papers on activities they want to carry out to help cement cultural integration.

# TIES ESTABLISHED WITH DJIBOUTI

AMMAN (JNA). — The Jordanian government Wednesday recognised the newly-independent Republic of Djibouti.

# Abu Odeh meets Bahraini ruler

MANAMA, Bahrain, June 29 (JNA). — Minister of Information Adnan Abu Odeh, currently on a visit to Bahrain, was received today by its ruler. Sheikh Issa Ibn Salman Al Khalifeh, and its Prime Minister, Sheikh Khalifeh Ibn Salman Al Khalifeh.

Discussions centred on existing relations between the two countries and in particular those in tha information field. The meetings were attended by the Bahraini minister of

information and Jordan's ambassador to Bahrain.

Later on Wednesday, an information meeting was held by the two parties, during which they reviewed ways of boosting cultural and information relations. The exchange of television and radio programmes and news expertise was stres-

# ANTIQUE TRADING PROHIBITED

AMMAN (JNA). — Licences for trading in antiques have been withdrawn from all traders in Jordan, the Director General of the Department of Antiquities, Dr. Adnan Hadidi, said Wednesday.

He said his department had provided all traders with a list of antiques so they can be bought by the department.

bought by the department.
A sum of JD 100,000 has been earmarked in the state budget for buying antiques from citizens.

Meanwhile, the Department of Antiquities will start to repair Qasr Al Bint, a historic site at Petra. Other repairs and excavations are now going on in Petra by an American archaeological team in cooperation with the Department of Antiquities.

# TRANSPORT ACCORD DUE WITH BRITAIN

AMMAN (JNA). — The government has decided to carry out talks with Britain to conclude an overland transport agreement. The time and place of the talks will be fixed later, Ministry of Transport sources said Tuesday.

The two sides also agreed to prepare two working papers -- one Jordanian and the other Syrian -- fixing the principles of cooperation between publishing houses, writers societies and theatre groups in the two countries. The ministers also called for the encouragement of joint productions.

Sharif Fawwaz was later received by Syrian President Hafez Assad and Prime Minister Maj.-Gen. Abdul Rahman Khleifawi.

Sharif Fawwaz also held taiks with Minister of Information Ahmad Iskandar Ahmad on cooperation in the information field.

#### THE MESSAGE PERMITTED IN AMMAN CINEMAS

AMMAN (JNA). — The Director of the Department of Press and Publications, in his capacity as head of the film censorship committee, Wednesday gave the green light for the screening of the controversial film The Message in both its Arabic and English versions.

The film, to be shown here in July, deals with the life of the Prophet Mohammad. It was co-produced by Libya, Kuwait and Monacco

and Morocco.

Most of the shooting of the \$14 million film was done on location in Libya and Morocco. Anthony Quinn starred in the English and the Egyptian actor Abdullah Gheith in the Arabic

The film has been shown in various parts of Europe and the United States.

## Malaysian ambassador ends visit

AMMAN (JNA). — Malaysia's non-resident ambassador to Jordan, Prince Abdul Aziz Mohammad Hamzeh, returned to Saudi Arabia Wednesday at the end of a five-day visit during which he signed an air transport agreement between his

country and Jordan.
Prince Hamzeh, who is also his country's ambassador to Saudi Arabia, met with Minister of State for Foreign Affairs Hassan Ibrahim while bere.

He was seen off at the airport by the Director-General of the Civil Aviation Department, Sharif Ghazi Rakan, and the Vice President of Alia, the Royal Jordanian Airline.

# Britain agrees on allowances for Palestinians

AMMAN (JNA). — The British Ministry of Overseas Development has agreed to pay retired Palestinian officials a cost of living allowance for their unmarried sons and daughters under the age of 18.

der the age of 18.

Minister of Finance Dr. Mohammad Dabbas said the decision came after Jordan asked Britain to make such allowances the same as for Jordanian retired officials.

Minister of Awast and Islamic Affairs Kamel Al Sharif (centre) addresses the General Islamic Congress meeting here Wednesday to discuss Israeli desecration of Moslem and Christian holy places. (INA photo).

# Religious leaders urge meeting on West Bank

AMMAN (JNA). — The General Islamic Congress for Bait Al Maqdes (Jerusalem) has called for an emergency meeting of Moslem and Christian clergymen in the Kingdom to discuss the question of Al Aqsa mosque and the situation of Islamic and Christian holy places in the occupied West Bank.

holy places in the occupied West Bank.

The conferees, meeting here Wednesday, agreed to form a committee of Moslem and Christian leaders to issue statements and send cables to Arab and Moslem heads of state, the Arab League, United Nations and Moslem and Christian organisations outlining Zionist plans against Islamic shrines.

A Moslem-Christian delegation will pay visits to Arab, Moslem and friendly countries to explain the question of Israeli desecration of holy places.

Minister of Awqaf and Islamic Affairs Kamel Al Sharif, President of the General Islamic Congress, said that since Jordan was nearest of all people to the occupied Arab land, it was its sacred duty to convey its developments to the Arab and Moslem worlds and to outline the seriousness of the situation confronting the Arab people and holy places under occupation.

The minister said that the Israeli Likud's decision to place the Jerusalem walls and holy places under the supervision of the Rabbinical High Council and the continuation of excavations under Al Aqsa mosque would ultimately make Palestine a homeland for the Jews.

He emphasised that Israeli statements reflected Zionist colonisation plans.

Latin Bishop Nimeh Sam'an said that by placing excavations under Al Aqsa mosque under the control of the rabbis, the Zionists intended to realise their dream of building Solomon's temple over the ruins of Al Aqsa.

The bishop warned that the Church of the Holy Sepulchre and the Church of the Nativity might face the same danger unless something was done now.

A total of 25 Moslem and Christian religious lead-

ers were present, including Chief Justice Ibrahim Al Qattan, former Minister of Awqaf Sheikh Abdul Hamid Al Sayeh, Mayor of Jerusalem Ruhi Al Khatib, Greek Orthodox Bishop Theodoros, Anglican Archdeacon Elia Khouri and former Minister of Social Affairs Emile Ghory.

SAFI-AQABA ROAD

FINISHED AT

YEAR'S END

AMMAN (JNA). — The 187 kms. Safi-Aqaba road will be completed by the end of this year, the Director of Roads at

the Ministry of Public Works,

Mr. Salem Abu Hassan, said

He said the ministry had just

completed studies for an addi-

tional 25 kms. link between Ghor Al Mazra'a and the Safi-

Aqaba road. Work on the new

extension will begin soon.
The Safi-Aqaba road will cost about JD 6 million.

# Arab Air University to fly into Amman in great style

By Rami G. Khouri Special to the Jordan Times

Having received clearance for take-off from the pan-Arab civil aviation and airlines organisations, the plan to turn Amman into the civil aviation capital of the Middle East is getting off the ground at last.

At a joint meeting in Morocco earlier this summer, the
Arab Air Carriers Organisation and the Arab Civil Aviation Council approved plans to
set up an Arab Air University
in Annman that would serve the
entire region. This bas just
been followed up by an official request to the Arab Fund
for Economic and Social Development (AFESD) for some
\$300,000 to fund a pre-investment study and master-plan
for the university.

The AFESD has greeted the air university project as a "deserving" one, and a favourable decision is anticipated this summer. If, for some reason, the AFESD funds are not forthcoming, Jordan will either seek other funding sources or put up the money itself for the pre-investment study.

The Arab Air University, according to Alia Chairman Ali Ghandour, one of the driving forces behind the project, is to provide a focal point for the massive training of staff that will be required by the Arab civil aviation industry over the coming decades.

According to the initial plan, drawn up by Arab Air Services Corporation, the Amman "main campus" of the university would be the bub of a network of training facilities throughout the Arab World, most of which already exist.

The Amman facility would be the central coordinating and policy-setting unit for the university, and it would set common standards, policies and rules for the aviation industry throughout the Arab states.

"We're aiming for a decentralised academy with a central unit to set standards and provide textbooks and training materials," Mr. Ghandour said in an interview here recently.

He says the personnel needs of the Arab airline industry are so great over the coming decade that the disparate training programmes being run by individual Arab states will not meet the staff requirements of the 16 Arab airlines. The rationale behind the Arab Air University is that it would br-

ing these separate efforts together and provide a standardisation that is essential for safety and efficiency in tra-

King Hussein has already promised to turn over the present Amman airport and the Royal Jordanian Air Academy to form the nucleus of the new university, when the new Amman airport is ready by 1980. The gift includes the two new Boeing 707 and 727 flight simulators that are now being installed for Alia at the existing airport.

The initial plan for the univarsity envisages it as offering both short technical training courses for airline personnel as well as a regular four-year bachelor's degree with a specialisation in engineering and sciences.

According to Mr. Najeeb Halaby, former Pan American World Airways Chairman and part owner with Alia and Syrian Airways of Arab Air Services Corporation, the university would probably have five "academies" -- for flying, flight services (cabin crews), maintenance, airports and airways (flight controllers, communications).

He said in a recent interview that some of the academies could be located outside Jordan, with the airports academy likely to be set up in Saudi Arabia, for example.

Both Mr. Ghandour and Mr. Halaby estimate that the project will include around \$25 million worth of new projects, including buildings and equip-

A plane out on a training mission for the Royal Jordanian Air Academy. Next in line: An Arab Air Academy embracing the whole of the Arab World.

ment for the campus that will be located in the area beyond the runways of the existing Amman airport.

Arab Air Services is expected to win the contract for the master plan and pre-investment study. Mr. Halaby expects these to be completed by the end of this year, so that work on the university's facilities could start in early 1978.

It is boped that the university could open its doors by early 1980.

Mr. Halaby estimates that about 10,000 new trained staff will be required to man the Arab airline industry over the coming decade, and the expectation is that such an enormous training project would be run more efficiently and rationally under the aegis of the new university.

If these new staff were to be trained through the Arab Air University, the project would be self-financing after its initial establishment through loans from the AFESD or other Arab aid funds, and Arab government grants.

At a later stage, according to Mr. Halabi, the university would include a full college of aeronautics, and it could accept non-Arab students, as its standards would be recognised by the international civil aviation community.

aviation community.

According to the initial plan, the Arab Air University will combine the "best techniques, technology and expertise of public and private flight schools ... airline training departmen-

... airline training departments, aeronautical institutes, aircraft manufacturing companies and governmentni institutions...," and it "should be on a level that its facilities, faculty and training equipment will be reengnised by the academic world as an accredited univer-

The university would be responsible to a board of directors whose members would come from all the Arab states, according to Mr. Ghandour,

# Yen hits three year high against dollar

The Japanese yen today rose to its highest level against the dollar for more than three years following foreign criticism of the country's massive trade

The yen opened on tha Tokyo Foreign Exchange at 270 to the dollar, but appreciated almost immediately and hit 267.80 at one point before closing at 268.90.

Some market dealers said the Bank of Japan intervened to stem the dollar's decline, but withdrew as the measure proved ineffective.

Although there was no confirmation of central bank intervention, most foreign exchange bankers believed before today that it would take action to prevent the yen rising above the 270 barrier.

Bankers are now predicting that the yen will appreciate to 260 in coming months, which would make Japanese imports increasingly cheaper and exports more expensive.

The next psychological bar-

# Third World shipbuilding threatens Japan, W. Europe

PARIS, June 29 (R). — Japan and its West European shipbuilding partners are becoming increasingly concerned about the mounting trade threat posed by Third World shipbullding nations, European shipbuilding officials said yester-

The rising share of the world shipbuilding market taken by countries such as Brazil, South Korea and Taiwan dominated much of a two-day shipbuilding meeting at the 24-nation Organisation of Economic Cooperation and development (OECD).

Lloyds register of shipping igures showed that the share of total world orders taken by non-OECD nations has more than doubled in the last four years reaching 15.9 per cent in the first nine months last vear.

Delegates said It was agreed that the next OECD shipbuilding meeting in September should concentrate on establishing why non-OECD countries were so successful in obtaining orders.

Japan continued to show its displeasure at the spread of subsidies in Western European shipbuilding countries but welcomed efforts to restructure European shipyards, European

European delegates counter ed the Japanese criticism by again expressing dissatisfaction with Japan's decision earlier this year to raise the export price of its ships by five per cent, saying this was insufficient to increase the flow of orders ot European yards.

They argued that Japanese prices remained artificially low, financed by order cancellation fees, past profits, excep-tional overdraft facilities and the ability of Japanese yards to spread their overheads amnng associated companies.

Latest OECD figures show Japan's share of total new shipbuilding orders received in the OECD area fell to 54 per cent in April from an average 85 per cent the previous three

# Kissinger blames bloc tactics for impasse in rich-poor dialogue

WASHINGTON, June 29 (R). - Former Secretary of State Henry Kissinger today blamed the "stale rhetoric of confrontation" of developing nations for the impasse in establishing a dialogue between rich and poor countries.

At the same time, be warned Third World countries against overestimating their ability to manipulate raw material prices to their own advantage.

Speaking at Georgetown University Dr. Kissinger said it was clear that the so called north-south dialogue between rich and poor nations had fail-

"And it is plain enough that if it deteriorates to a level of confrontation and conflict the gulf between the rich and poor will widen ominously," he warned

At the heart of the problem, he said, was the developing countries' "stale rhetoric of confrontation, their adherence to

never worked ... and their insistence on bloc tactics."

While the developing countries did have legitimate demands for equity and greater opportunity, their attempts to wield bloc economic power could only disrupt production, Dr. Kissinger said.

Another factor in the northsouth dialogue impasse was developing nations' nttempt to follow the model of the oilproducing nations and use raw material prices as a weapon.

Oil, he said was a special case and it was high time that developing countries realised new schemes to market their raw materials could not be determined through attempts at economic pressure.

Underlining the role of the business community in the di-alogue, Dr. Kissinger said on-ly private capital could close the gap between rich and poor nations.

#### WALL STREET

6.0360 / 75

Prices were lower once again Wednesday on the New York Stock Exchange where the Dow Jones industrial average lost a little more than two points in moderate trading. The market lost as much as five points during the day be-

fore recovering some lost ground in the last two hours.

The Commerce Department announced today that the index nf leading economic indicators had fallen 0.2 per cent in May, its first decline in four months. Portfolio adjustments by institutions before the end of the first semester also bad a negative:

effect, especially on blue chip and glamour stocks.

Most groups of shares closed on a mixed to weaker tone. At the close, the industrial average shows at 913.33, a loss of 2.29 points: Transp at 236.61, a loss of 0.29; utilities at 114.74, a loss of 0.29. 19,000,000 shares changed hands, of which 4,100,000 during the last hour.

#### LONDON MARKET REPORT

Equities closed easier Wednesday after a quiet session. At 15:00 the F.T. index was down 2.7 at 455.9.

The active issue was again British Petroleum with the "new shares" 5p down at 37g after extremes of 373 and 383. The "old" shares closed 10p off at 926.

Government bonds snowed little material change but the undertone was firm helped by the strength of the sterling, dealers said. Golds ,U.S. and Canadians were all lower.

Lucas lost 6p while 3p falls were noted in Fisons, Glazo, Bats and Bowater. Unliever ended 4p off. Hawker Siddeley and Thorn were among firmer exceptions. Shell was 11p down in oils. J. Lyons finished 4p higher after its results.

Price of gold closed in London Wednesday at \$142.30/oz-

its export drives following in-

creased criticism from overseas

countries, especially the Unit-ed States and the European

Common Market (EEC).

Japan last year had a

cord trade surplus of \$9.9 bil-lion, nearly double the figure

for 1975, while trade sources said the United States and the EEC had deficits with Japan of \$5.3 billion and \$4.2 billion respectively.

ternal reserves.

Rwanda and Burundi are two of the smallest, poorest and least favoured countries in Africa. This in itself bas made them instructive test-bed sites for Third World development

The two countries are neighbours, straddling the head waters of the Blue Nile and of the Congo basin, it is a long way to the outside world, 900 miles to the Indian Ocean and 1,200 miles to the Atlantic, and longer than that by roundabout land routes with uncertain frontier crossings, through Uganda, or Tanzania, or

Each is about as hig as Belgium, and each has a population of about 4 million. They have the highest population densities of all the countries in Africa -- the official figures

Of all the countries of Africa Rwanda and Burundi once the Belgian colony of Ruanda-Urundi, have the densest population. They are also almost in the middle of Africa -- 900 miles from the Indian Ocean and 1,200 miles from the Atlantic. Nearly 95 per cent of the people live in the country, most of them at subsistence level. A correspondent who has just visited both countries reports on w the local people are developing projects to make a better life

bably between 2.5 and 3 per cent per annum.

About 95 per cent uf the people live in the country, most of them at a bare subsistence level, in isolated family farms of typically about two thirds of a hectare (about one and a haif acres).

Almost all the available land is already cultivated -- indeed it can be seen to be tilled right up to the very edges of the roads. An evcessively iange

proportion of the land is planted with bananas -- threequarters of which are said to be used for beer. The economies of both coun-

tries are beavily dependent on a single cash crop, coffee, whi-cb accounts for 80 per cent of Burundi exports and 60 per cent of Rwanda exports. Recent violent price fluctuations have had seriously unsettling effects. In 1975 when coffee prices collapsed Burundi had to suspend imports of fertiliser and pestleides which it could no longer afford to pay

Economic difficulties are accentuated by the long line of communications with the out-side world and rising transport costs. There are no railways, the nearest railheads being at Kampala in Uganda for Mombasa and Kigoma in Tanzania for Dar es Salaam.

Both countries have been weakened by the endemic and murderous ethnic feud bet-ween the Hutus (an indigenous Bantu people) and the Tutsis (pastoralists from the north wbo settled in the two countries some centuries ago and established themselves as minority ruling caste).

All told, it seems a profile of two bopeless cases. Both countries have been getting large sums in external development assistance, equivalent to almost 40 per cent of the budget revenue in Rwanda and almost as much as the budget revenue in Burundi. All the United Nations aid agencies are at work there and Belgium is putting in substantial bilateral aid. Yet economic growth remains stagnant.

There are some major development projects in hand, such as the building of hydroelectric plants and new roads, minerals prospecting, and the diversification of casb crops for export, such as rice and cotton in the valley bottoms, tea in the hills and quinquina plantations (with a rising world demand for quinine in drinks as well as drugs).

All this is necessary, but meanwhile the poverty of the 95 per cent still living in their mud-plaster and thatch huts among the banana trees remains almost untouched.

The logic of the situation is that only by basic rural de-velopment, right down at the banana roots, can things begin to change. And this what is now beginning to hap-

The new philosophy of development argues that only the people themselves can change their way of life. It cannot be done for them by outsiders, though they need to be shown by outsiders what can be done through simple instruction and demonstration projects which can be copied. But at the end of the day they have to take over and run things themselves. A number of pilot projects along

# CORED BRIDGE

BY CHARLES H. GOREN AND OMAR SHARIF © 1977 by Chicago Tribune

Q.1-As South, vulnerable with 90 on score, you hold: **◆AJ6** ™A98 ≎K6532 **◆84** Partner opens the hidding with one spade. What do you

respond? A .- Two spades. At this score, partner will bear in mind that you might be stronger than usual, so if he has a very good hand, he will bid again. If you respond two diamonds, the bidding could get out of control. There is another advantage to the underbid. The opport might enter the auction if they think you were weak—to their great detriment.

Q.2-As South, vulnerable, you hold:

+AQ ♥A7 0763 +AQ10432 The bidding has proceeded: South West North East 1 + Pass 1 7 1 +

2 💠 Pass 2 m Pass What do you hid now?

A.—Now that partner has rebid his hearts freely, you surely want to be at least in game. With your wealth of cootrols, you should not rule out the possibility of slam. You can get your message across to partner by cue-bidding two spades—in view of your simple rebid at your second turn, partner won't play you for more than you hold.

Q.3-Both vulnerable, as South you hold: **♦**AK6 ♥AQ83 ♦AQ8 **♦**J52 The hidding has proceeded: West North East South Pass Pass 1 4 What action do you take?

A.—Double. With 20 points, your hand is too strong for a no trump overcall, which would show only the equivalent of a no trump opening bid. i.e.. 16-18 poiots. Assuming partner bids two of a minor in response, you can then try two no trump, thus describ-ing a hadd better than an overcall of one no trump. Q.4-As South, vulnerable,

you hold: +Q743 ♥AK865 ♦KJ +92 The bidding has proceeded: North East South West 1 + Pass 3 + Pass 40 Pass 4 7 Pass 5 + Pass ? What do you bid now?

A.—This is merely a question of whether you play a small slam or a grand. Your object should be to try to show both red kings. We would cue-bid the king of diamonds first, intending to show the heart king at the six-level if partner does anything other than jump to six spades over five

Q.5-As South, vulnerable. you hold:

**◆A4 ♡A8642 ○J763 ◆84** The hidding has proceeded: North East South West Pass 1 NT Pass 2 💠 Pass ?

What action do you take? A .- Raise to three spades. Partner's spade r-bid over your no trump response surely promises a six-card suit. You are absolutely maximum for your initial action, and A x in partner's suil is a definite asset. Let partner know that there could be a game

in the cards.

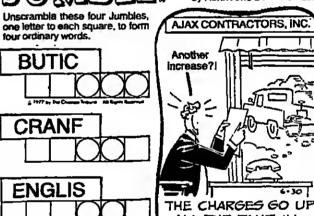

Q.6-Both vulnerable, as South you hold: +AK8 TQJ106 ⊕743 +A109 The hidding has proceeded: South West North East 1 + Dbie. Rdble. Pass 1 · Pass Pass Pass 1 + Pass

What action do you tala? A.-The new suit by partner is forcing for one round, so you must act. Despite the fact that you don't have a diamond stopper, we suggest you rebid one no trump. In all other re-spects, your hand qualifies per-fectly for no trump and, in view of the way the auction has progressed, partner more than likely has a diamond stopper for his redouble.

Q.7-East West vulnerable. as South you hold: +A ♥J →Q108752 +Q10743 Partner opens the bidding with one diamond. Whal do

you respond? A.—There is no way to bid this hand scientifically. You might have a slam in diamonds, or the hand could belong to the opponents in a major suit contract. Rather than give anyone a chance to discover the potential of the hand, we suggest a fullblooded preempt of five dia-monds. Let the opponents take their chances at the five-level. If partner has a hand rich in controls, he is free to hid on.

# Andreotti allies agree on legislation programme

ROME, June 29 (AFP). — Leaders of five of the six parties supporting the minority gove-rnment of Italian Premier Guilio Andreotti have agreed on a programme of legislation to boost the economy, tackle vio-lence and make educational

The programme was initialled here last night after three months of bargaining by the secretaries general of the Communist Party and Mr. Andreotti's Christlan Democrats. They were joined by leaders of three smaller parties and all five said they would seek the approval of their various party organisations before meeting again on Monday with leaders of the parliamentary group-

They did not bowever decide whether the present government should make way for a Christian Democrat-Communist

The Communists who have been in opposition for 30 years, favour this move, which would forge an alliance bolding 490 of the 630 seats in the

cbamber of deputies.
The Christian Democrats
who have ruled since World War II oppose it.

The Communist Party newspaper L'Unita hailed the agreement in a seven-column spr-ead and said that "an important political declaration" had also been approved.

The Christian Democrat II Popolo, more restrained, repsummit on agreement on the orted a 'broad consensus at the programme".

ntinue ordaining priests at his traditionalist seminary above this southern Rhone Valley vil-

Pope Paul said on Monday the archbishop faced "an irr-eparable break" with the church of Rome.

Archbishop Lefebvre told the gathering, at which he also or-dained 16 sub-deacons, that "the mercenaries, thieves and wolves are already in the church. We do not want to be part of a church that makes friends with our enemies."
He bitterly attacked commu-

nism, criticising a recent visit to the Vatican by Hungarian Communist Party leader Janos Kadar, whom be accused of having "spilled the blood of Ca-

tholics" in Hungary. Vatican Radio briefly reported that the archbisbop had gone ahead with today's ceremony in defiance of the Pope and repeated the pontiff's warning of a break with the

church. It made no other comment. but there was speculation in the Vatican City that the Pope might refer to the situation in a sermon at high mass tonight

in St. Peter's Basilica. Msgr. Lefebvre, former arch-bishop of Dakar in the West African stete of Senegal, told the hillside gathering: "We no longer understand. This is no longer our Catholic church,

our Catholic faith.
"They want to align us with them, want us to lend our hands to the destruction of the cburch. But we don't want to be adulterers. We refuse to collaborate in the destruction of the church," he added.

Priests at the seminary here, answering reporters questions,

tinue to oppose the reforms in-itiated by the Second (1962-65) Vatican Council and would coere was no question of his se-

tting up a rival church. The pale, white-haired pre-late, sheltered by a large openfronted tent as morning sunshine gave way to heavy rain, told his followers: "We do not want any other faith. We want the Catholic faith. We are all here because we want eternal

What remains of the Catholic church? If you look around, you see seminaries clo-

sed or for sale," be said.

Msgr. Lefebvre ordained 14
priests -- 10 French, one American, a Swiss, an Australien and a Scotsman. But of 22 young men due to be ordained as sub-deacons, only 16 were ordained.

A seminary apokesman said he was not sure what bad happened to the others. They may have been ill or the original list may have been wrong, he told reporters.

The last schism in the Roman Catholic church occurred in 1871 when the so-called Old Catholics broke away in protest against the definition of Papal infallibility by the First

Vatican Council of 1869-70. Traditionalists who still fol-low the now-abolished Latin mass and support Archbishop Lefebvre are concentrated mainly in France and a few other countries of Western Europe, including Austria, West Germany and Switzerland, where he has located his seminary in the predominantly Catholic canton

sources have said Vatican there are probably a number of Catholics who secretly agree with his traditionalist views, hut not with his defiance of

# N.Y. Mayor Beame: Concorde is a giant step backwards

NEW YORK, June 29 (R). — Mayor Abraham Beame yesterday adamantly opposed allowing the Anglo-French Concorde airliner to land at Kennedy airport bere, saying the supersonic jet "repsesents a giant step backwards in aircraft development."

Mr. Beame was speaking at a sparsely attended public hearing beld by the Port Authority of New York and New Jersey, operators of Kennedy airport, to determine whether Concorde would be acceptable to people living near the airport.

The mayor said the city believed "The Concorde should not be allowed to land at Kennedy ... (which) is in a densely populated urban area -- populated with people, not fish."

French President Valery Giscard d'Estaing has been quoted as saying that Concorde's noise around Kennedy would be heard

as saying that Concorde's noise around Kennedy would be heard

mainly by fisb. British Airways and Air France dld not attend the hearing.

A long parade of local politicals spoke against Concorde.

Their comments included: Ralph Caso, chief executive of Nassau Country, near Kennedy airport, said "I continue to be appalled by the arrogance of the

British and the French, who are demanding that, at no matter what cost, we accept their noisy white elephant."

Congressman James Scheur, who represents the airport area called Concorde a "flying fiscal disaster."

Mayor Beame said Concorde is a "regression rather than

progression in air travel since it achieves bigher speeds at the cost of greater noise. The Concorde thus actually represents a giant step backwards in aircraft development since it is being introduced at the very time when American aircraft manufactu-rers are producing quieter, cleaner aircraft."

# Bahrain, U.S. terminate accord for 7th Fleet port facilities

BAHRAIN, June 29 (Agencies) — Bahrain and the United States have agreed that the U.S. will give up its port and naval facilities here on July 1, Foreign Ministry officials said today. Bahrain will take over the facilities on

Friday, the officials said. They said that agreement had been reached after negotiations which began in 1975. It took a long time to reach an accred be-

cause the talks were interrupted by last year's U.S. presidential elections. The dock and port facilities, at Jufeir near bere, were used to service ships of the U.S.

The Foreign Ministry spokesman said that it had also been decided "by common consen." to allow the United States to retain a raval school here run by the Department of Defence. He said that the two governments "emper that American warships will from time to time

pay courtesy calls in Enhrain's ports.

These arrangements testify to the contin-

ling friendship between the two countries", he

The United States signed a secret agreem ent with Eahrain six years ago under which Seventh Fleet vessels were allowed to use the base at Jufeir.

The Bahrami Foreign Minister, Sheikh Mo-hammad Ibn Mubarak Al Khalifa was quoted by a Beirut newspaper 18 days ago as saying that the six-year old accord would be rescin-

The minister said that Bahrain would re-cover control of the base, but added that U.S. servicemen stationed at the base and their families could remain in Bahrain as civilians. The Bahrain press welcomed the announcoment, saying that the base had "threatened the country's policy of non-alignment."

# Lebanese hijacks Gulf Air plane, surrenders to police in Qatar

burst into the cockpit shortly

The man did not speak any English and his instructions

were possed through an Arab-

from Dubai.

DOHA, Qatar, June 29 (R).

— A Lebanese man, arrested here today after hijacking e Gulf Air VC-10 airliner with 64 people on board, said he wanted to draw attention to what he termed the deteriora:ing situation in southern Leb-

Samir Mohammad Hassan Sharara, 26, said by officials to be from the soutnern Lebanese town of Bint Jbeil, told reporters he was fully satisfied that his hijack was "the best way to attract the attention of Arabs who do not care enough about the deteriorating situation in southern Lebanon."

The area has been the scene of armed clashes between Pelestinians and the Lebanese left on one side and the Lebanese right on the other.

Sharara was arrested by Qatari security men after freeing unharmed the 55 passengers and nine crew eboard the The plane, on a flight from

London to the Gulf states of Dubai and Muscat, has since flown on with its passengers to Muscat. An official statement issued

bere sald Sharara, armed with a silencer-equipoed pistol and two hand grenades, had board-ed the flight at Dubal. Qatari authoritles allowed

the plane to land bere at 08:30 local time because its fuel would have lasted only another 15 minutes and the lives of the passengers and crew were in The statement said Qatar's

Crown Prince and Detence Minister, Sheikh Hamad Ibn Khalifa Al Thani, went to the airport to supervise negotiations with tha hijacker. After Sharara allowed the

crew and passengers off the plane, a group of Qatari secu-rity men "infiltrated inside the plane and arrested the hijacker," the statement sald. The pilot of the plane, Cap-

tain Roy Mitchell, told Reuters that the hljacker had two armed nand-grenades. Speaking by telephone from

# Mideast talks tipped to be on agenda of Waldheim's Moscow visit in September

MOSCOW. June 29 (R). --United Nations Secretary General Kurt Waldheim will visit the Soviet Union in the first 10 days of September at the invitation of the Soviet government. TASS news agency reported today.

The announcement gave no further details of Mr. Waldhelm's visit, which will be his first to the Soviet Union since 1972. His first year as U.N.

On that occasion he held talks with Soviet Premier Ale-xel Kosygin and Foreign Mini-Andrei Gromyko which touched on some of the world's major trouble-spots, including the Middle East. Western observers said that the Middle East would almost certainly figure in this Septe-

mber's talks and that the po-

ssible reconvening of the Ge-

neva peace conference was likely to be on the agenda.

Dr. Waldheim's office announced last Friday that the secretary general would visit China from July 25 to Aug. 2 at the invitation of the Chinese government. He has made

one other visit to China as secretary general, also in 1972. Supreme Court decision

# helps clear way for public access to Nixon papers, tape recordings

The ruling was "a historic victory for the public's right to know bow this nation is goamendment principle that go-vernment officials -- no matter how bigh - - remain accountable to the people and to history for their acts in office," the

# 700,000 year-old skeleton discovered in Greece

ATHENS, June 29 (R). — The oldest skeleton of man ever found in Europe has been uncovered in a cave in northern Greece, according to a Greek archaeologist. Dr. Aris Poulianos told re-

porters last night that about 10 years' work had gone into the discovery of the "Petralo-na Man", whom he calculated to be about 700,000 years old. He added that traces of burned bones end ashes in hearths at all cultural levels in the Petralona caves south of Salonika where the skeleton was found left no doubt that the

man was a user of fire. "Thus we could sey that we have at the Petraiona cave the oldest traces of fire used by man known from any excavation up to today," Dr. Poulian-

The previous oldest find in Europe was the Heidelberg Man, discovered near the West German city of the same name in 1907 end variously estima-ted at between 300,000 and \$50,000 years old.

The Petralona Man was rig-ht-handed and probably had articulate speech, Dr. Poulianos said. The cave was discovered by villagers in 1960 and appears

to have been sealed for about 500,000 years.
"Part of the skeleton of the Petralona Man crumbled to dust when the scientists took it into the outside air," Dr Poulianos said.

"But the akull itself was preserved by stalagmites," he sa-Dr. Poulianos added that a

series of uranium thorium tes-

ts and electron spin resonance

dating -- a new technique involving measuring the damage caused by naturally occurring radiation -- confirmed the date of the skull at 700,000 years plus or minus 10,000 years. Dr. Poulianos said the minimum age of the stalagmites taken from the top of a column in the cava was 250,000 years old but the maximum date could be up to 700,000

years old.

WASHINGTON, June 29 (R). - Congress has voted to press ahead with development of the B-1 superbomber -- which would be the most expensive weapons system in history -even though some critics argued that it was obsolete.

Government sources here said yesterday the Soviet Union has already begun work on a new fighter designed to intercept the B-1.

But congressmen backing the B-1 said it could be modernl-sed for service well into the next century against any Soviet air defence innovations. A final decision on B-1 de-

velopment now rests with President Carter who during his election campaign described it as a wasteful plane. The Pentagon has already spent \$4 billion on the proby 243 votes to 178, an amend ment cutting off a further \$1.5 billion in funds for the plane. The cost of the whole project is estimated at \$24.8 billion. If developed as planned, the B-1 would be able to fly at almost the speed of sound at altitudes of 200 feet (about 60 metres) to escape enemy ra-

The government sources said the new Soviet interceptors would have sophisticated "lookdown" radar systems to detect bombers at three-top level.

They also said they did not think news of the Soviet developments would affect Mr.

which he was expected to announce tomorrow. Pentagon sources said the president had not yet made up his mind. But he was thought to be considering alternatives to the full proposed production ject and the House of Repre-sentatives last night rejected, programme of 244 B-ls.

Carter's decision on the B-1,

# WORLD NEWS BRIEFS

\* TEL AVIV, June 29 (R). - Israel's Ministry of Education has withdrawn question papers for next week's national matriculation (school leaving) examination after the revelation that the complete set was on sale for 12,000 Israeli pounds (738 sterling). Communist Party member Charlie Biton said in the Knesset yesterday that copies of the various tests were available for sale to students. He sent copies of the papers, sent to him by a student, to Israeli newspapers which published them today. Prices were said to have ranged from 4,500 Israeli pounds (£275) for the mathematics paper to 1,000 Israeli pounds (£62.50) for the Talmud (religious knowledge) paper. New question papers are being pre-pared and police are looking for the source of the leak.

\* CAIRO, June 29 (R). — Thirteen people were today sentenced a total of 75 years jail on charges of taking part in last January's food riots in Egypt, in which 80 people died. A supreme state security court in Cairo today acquitted 44 others. The accused are among more than 1,000 people standing trial on charges of taking part in the riots in acveral parts of the country.

\* ABU DHABI, June 29 (R). — The United Arab Emirates offi-cially recognised the Republic of Djibouti which gained indepen-dence on June 27, the Al Itihad newspaper said here today, according to the Qatar News Agency. The Foreign Ministry in Abu Dhabi sent a congratulatory cable to that effect to the Dilbouti

\* MAPUTO, June 29 (R). — Mozambiqua has recognised the new independent Republic of Djibouti. In a telegram to President Hassan Gouled, President Samora Machel also expressed Mozambique's desire of "establishing cooperation and friendly relations" with the new country. President Machel hailed the independence of Different Machel hailed the independence. of Djibonti as a "victory of all Africa, all mankind, in the struggle against colonialism, imperialism and racism."

\* VICTORIA, Seychelles, June 29 (R). — A new flag was raised here at midnight to replace the old one which the Seychelles islands' new leaders said resembled the British Union Jack. The new flag -- in red, white and green -- was raised as part of the celebrations to mark the first anniversary of independence from Britain. President Albert Rene said the flag had been chosen by the islands' new leaders and epitomised tha revolutionary spirit of the republic M. Rene took over control from the Seychelles first president, Mr. James Mancham, while the latter was attended ing the Commonwealth summit conference in London earlier this month. The national anthem will also be changed, the president

\* BAGHDAD, June 28 (R). — Kuwaiti Interior and Defence Minister Sheikh Saad Al Abdullah Al Sabah had talks bere today on strengthening relations between the two neighbouring countries, the Iraq News Agancy reported. It said the visitor, who arrived here yesterday for a three-day stay, conferred with Mr. Saddam Hussein Takriti, Vice President of the Iraqi Revolutionary Command Council, and Iraqi Interior Minister Izzat Ibrahim. Similar discussions covering also the aituation in the Arab region and international events were later held separately between Shelkh Saad and Mr. Ibrahim. The Kuwaiti minister had said on arrival that his talks here were a follow-up to discussions held by Mr. Ibrahim in Kuwait earlier this year. Observers believed Shekh Saad's talks would deal with differences over delineation of the

\* WARRINGTON, England, June 29 (R). — A British firm which sells prayer mats to Mecca today won the Incredible Exporter of the Year award. Mr. John Newhill, director of tha 10-employed firm in Halifax, thought up the idea when told that traditional sources in Beirut had been stopped by the civil war there. "I copied an illustration from a book at the local library. A couple of days later half a dozen samples were on their way to Mecca. The orders rolled in and soon the firm had sold 74,000 of them," Mr. Nawhill said today. Others competing for the award included firms selling Chinese food to Hong Kong, another which sells you mats to India, and a company exporting Swiss rolls (cakes) to Switzerland. All the entrants put their wares on show here this week. The last winner, two years ago, was a percussion firm which sold maracas to Caracas and bird whistles in the Canary Islands. The contest is sponsored by the Export Times newspaper and s
